

LEMON

Shouldn't a lemon soda be just carbonated water, high quality sugar and the world's best lemons? We think so at least!

We make our LEMON from highest quality organic Sicilian lemons. The tradition and heritage of citrus cultivation in Sicily goes back over a thousand years and the fruit, famous for its aromatic oils and tangy acidity, is considered to be amongst the very best in the world.

In production, the juice is squeezed and the skin is shredded before both being mixed into cold fresh spring water. The acidity is balanced with organic cane sugar to complement and accentuate the fragrant aromas. The lemonade is mixed cold and is never boiled, to ensure that all the natural freshness is preserved.

Ingredients:
