

KOLA SUGAR FREE

Kola with a K? Well of course – that's how kola nut is spelled!

The unmistakable flavour of a kola drink is achieved through careful selection and balancing of a number of aromatic ingredients.

In TÖRST KOLA SUGAR FREE we use twelve different components to create a complex yet harmonic and fragrant drink based around the traditional West African kola nut.

Instead of cane sugar we use a carefully selected blend of non-caloric sweeteners derived from the stevia plant together with erythritol. We make sure to use only products of natural origin, never compromising a natural and mindful choice for those that want a sugar free alternative.

Still a soda, just better.
